

New Talent Scheme

JT's Apprenticeship Scheme

The alternative to university, where you can still gain invaluable experience and professional qualifications

Looking for an alternative to university?

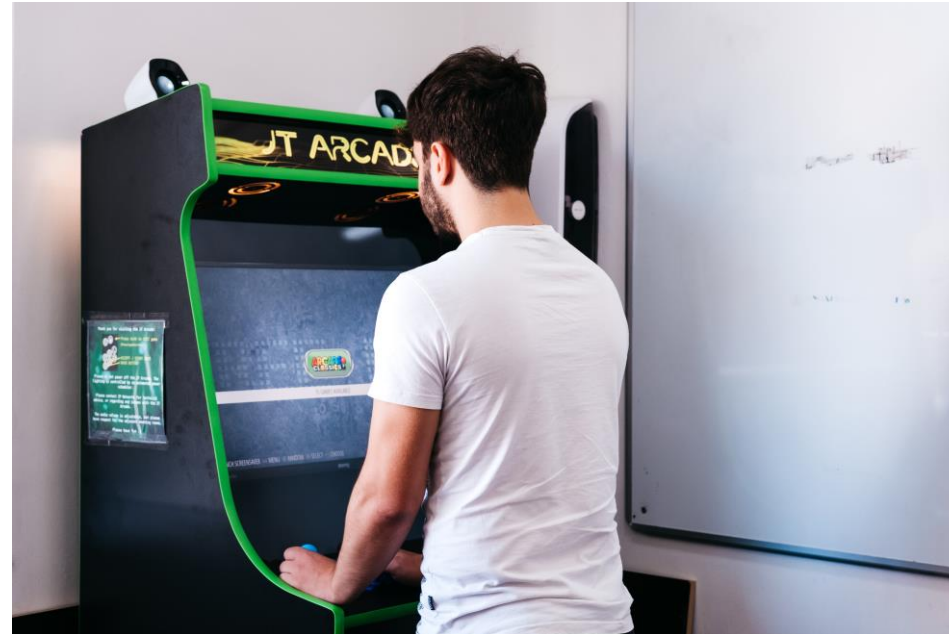

We know that university isn't your only option to securing yourself a great career. That's why here, at JT, we offer alternative opportunities for great talent to join us on our Apprenticeship scheme.

What is the JT Apprenticeship scheme?

Our Apprenticeship scheme is for those who have just completed A-Levels or college education and are looking for an alternative to the traditional university route.

Our three-year Apprenticeship programme gives you the chance to try different areas of technology such as

IT, Networking, Cyber Security or Software Development before you decide to specialise.

Why JT – what makes you different?

At JT we pride ourselves on being one big family and this filters through to our New Talent scheme too.

We are committed to empowering you in a fast-paced learning environment with exposure to our talented teams across the business.

We provide you with on the job training alongside highly experienced professionals who support you in progressing to a stage where you're ready to embark on a **professional qualification** such as **Network+, Cisco CCNA, ITIL** and many more.

When do you recruit and how do I apply?

We begin reviewing CV's in August after you receive your results. Interviews typically take place mid to the end of August and we aim to offer successful candidates a position in September.

If you'd like to find out more about our New Talent opportunities please contact HRInbox@jtglobal.com
