

# Work shadowing at The General Hospital

As an attendee of the Introduction to Medicine Course, you are able to apply to do 2 days of work shadowing in a specialty of your choice.

Work shadowing will only be arranged after you have attended the course and it is your responsibility to get in touch to arrange a placement.

Please take time to think about which department or departments you would potentially like to shadow and contact Oliver Leeming, Education Centre Manager (by email [o.leeming@health.gov.je](mailto:o.leeming@health.gov.je)) to request an application form. Please note that while every effort will be made to accommodate your request, this will not always be possible. Theatres and the Emergency Department will only be accessible to students aged 17 or over.

**Remember: it is what you learn about yourself; about other people and about how effective care is delivered and received that counts, not what you did.**
