

Job Description

Post Title: Associate (Graduate) – Risk Assurance Services

The Risk Assurance team at PwC takes pride in helping clients to identify, measure and manage their risk profile more effectively. Our Risk Assurance specialists offer knowledge and expertise, which extends to clients' internal controls (including IT systems), technology, non-financial reporting, corporate sustainability and regulatory compliance. In addition to supporting the external financial audit, our specialists also provide a variety of internal audit and advisory services. Our capabilities support a wide range of businesses and industry sectors, and on every project we undertake, the advice and assurance we deliver is tailored to the individual needs of that client.

Professional Qualifications

You will be able to study towards the ACA qualification with the Institute of Chartered Accountants of England and Wales (ICAEW). Or alternatively you can study towards the ACCA qualification to become a Chartered Certified Accountant. Other suitable qualifications could be considered.

Who is this vacancy for?

It doesn't matter who you are, what your background is or whether you are about to graduate or did so years ago. As you'll no doubt have gathered by now, we believe diversity is our strength. However, you must be academically strong - see below academic requirements.

Academic Requirements

A minimum of 112 UCAS points in one sitting. You must have, or be on course for, at least a 2.1 result in your degree, from any university. The subject of your degree is not important.

Do you need a Work Permit?

Due to immigration restrictions in Jersey and Guernsey the Channel Islands practice is unable to consider trainee candidates who require work permits. Work permits are currently only granted once candidates are fully professionally qualified.

Application Timetable

To avoid disappointment, apply as early as you can Further details can be found on the PwC 'Student Careers' Website.
