Our three- step process

01

Explore

Where in the world do you want to apply?

02

Prepare

Depending on your choices, what do you need to do to be able to apply?

03

Apply

Make sure that every element of your application works to your advantage.

Explore

Agree on a range of criteria for higher education.

Create a shortlist of 'best fit' universities.

Plan the onward strategy for selected university applications.

“

David surveyed the options for us in several countries to study law in English. We narrowed the search down and he then provided more detailed considerations about the applications and the process for individual institutions. As we made individual applications he provided invaluable guidance as to how to reshape elements of the application to fit the local model.

Prepare

Make connections with institutions for “demonstrated interest”.

Assess the applicant’s profile and make recommendations to improve academic and extracurricular characteristics.

Advise on appropriate university entrance tests (e.g. ACT, SAT, BMAT, HAT, TSA, etc.) and recommend course providers to help improve results in standardised testing. We also monitor the efficacy and progress of any chosen programmes.

Prepare itineraries and organise visits to as many universities as desired.

Working with you made the whole process of applying to American and Canadian universities a much smoother one. Without your help my application process wouldn't have been as efficient and successful as it was.

Apply

One-on-one intensive support with application essays.

Liaise with applicant's high school for production of materials (transcripts, recommendations, etc.).

Assist with completion of application documents.

Connect students with colleges for video or face-to-face interviews.

Provide ongoing post-application support.

"David demystified the US application process and helped me focus on what matters, ultimately getting me into Stanford's class of 2024."

Highly-regarded speaker and author on all aspects of university applications.

I can't thank you enough. At the start of this process I did not have any definite direction, all I knew was that I wanted to further my education. Thankfully with all your guidance and expertise I have been fortunate to receive a number of university offers. I have to attribute this to your approach in finding the university which was the "right-fit". I have accepted my offer from University of Toronto and if all goes to plan I will attend this autumn. I am so excited! Thank you once again.
